9 Is there any additional feedback you would like to provide about the instructor (e.g., teaching sty management, accessibility)?

(Instructor Text/Memo)

Kaden, Grace Instructor

- Nope, Mr. Grace was awesome and he is the only professor I have had that surfs which just makes him even cooler. His lectures were well organized and easy to understand.
- I loved the teaching style, great environment to seek help and learn more.
- n/a
- His lectures were easy to follow and he responded well to class feedback. He would change his lesson plans based on what the class wanted. For example, if they were struggling with a certain problem or concept, he would take extra time to go over it and give more practice.
- n/a
- N/A
- I liked how the tests were less conceptual and didn't have as many strict right and wrong answers but assessed whether we could think economically and critically after calculating the numbers.
- He is a fantastic professor.
- Dr. Grace made the class enjoyable and created a great learning environment, even while online.
- Very good teacher, slightly annoying that no late work is accepted but other than that very good teaching style and organization.
- Mr. Grace is great. Even taking his online formatted course you can really tell he loves and cares about economics. He was always very helpful in responding to emails and questions

10 Is there any additional feedback you would like to provide about the course (e.g., workload, content, technology)?

(Text/Memo)

- Perfect amount of workload, organized assignment due dates, and great use of content. The course really didn't challenge me only for the reason I have learned most of this back in economics in high school and the math portions usually I could solve from when I took Calculus I, II, and III
- No
- n/a
- No.
- n/a
- N/A
- I really enjoyed the class and really liked how applicable a lot of the content was to real life. It delved more into macroeconomics topics than I would've thought and I really enjoyed how learning more shaped my outlook on companies and the market in general. Overall, I really liked the class and learned a lot.
- no
- None
- Sometimes the course would have moments where stuff from the exams was found in lectures for days after the exam date, but once i figured that out I just worked ahead a day or two to be safe.
